

Task – 1: Responsive Portfolio Website

Introduction

This project is a responsive personal portfolio website developed using HTML5, CSS3, and Bootstrap 5. The website is designed to showcase personal information, technical skills, projects, and contact details in a professional and mobile-friendly layout.

Objective

The objective of this project is to create a fully responsive portfolio website with smooth navigation and clean UI design that works across desktop, tablet, and mobile devices.

Technologies Used

- HTML5
 - CSS3
 - Bootstrap 5

Features

- Responsive navigation bar
 - Smooth scrolling effect
 - Home section
 - Skills section
 - Projects section
 - Contact section
 - Mobile-friendly design
 - Bootstrap responsive layout

Sample Code

```
<section id="skills">

  <div class="container text-center">

    <h2>Skills</h2>

  </div>

</section>
```
